

Protect your birds from other animals

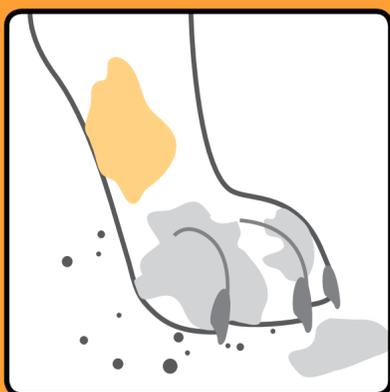

Minimise waterfowl and animals entering the shed or range area.

Waterfowl and animals can bring disease to your birds. Waterfowl, rats, foxes, pigs and even domestic animals such as cats and dogs should be prevented from coming into contact with your birds.

ANIMALS CAN SPREAD DISEASE BY:

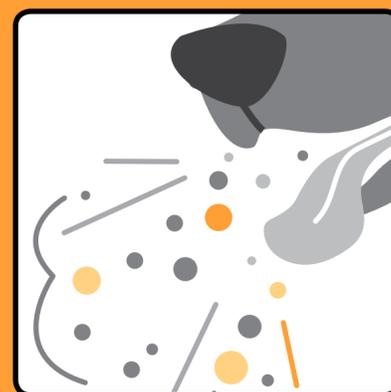

Droppings

Dirt

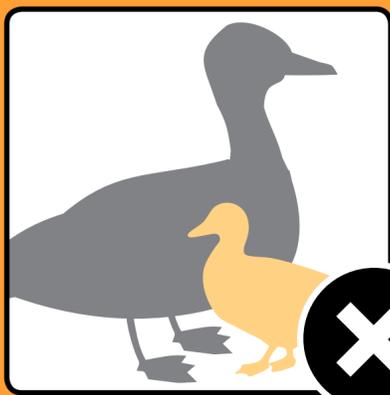

Debris

Air

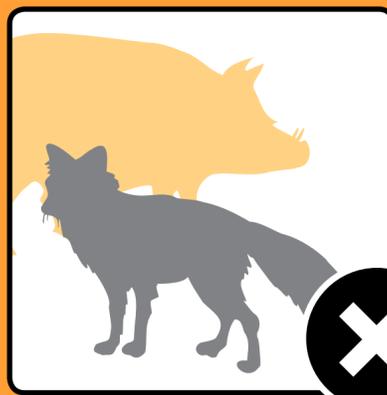

KEEP OUT:

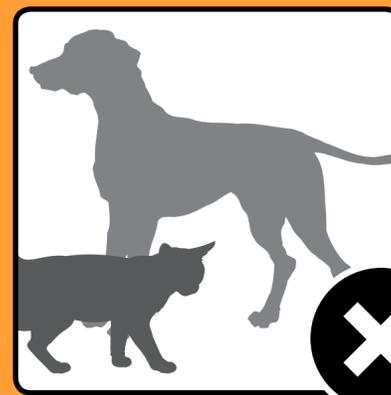

Waterfowl

Rodents

Feral animals

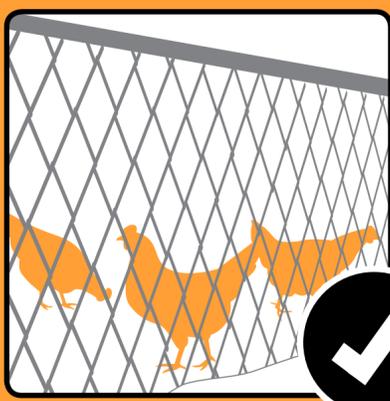

Domestic animals

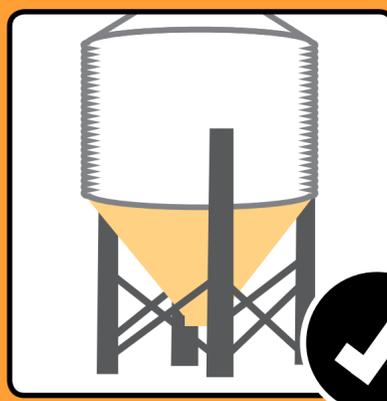

TAKE PRECAUTIONARY MEASURES:

Secure sheds

Maintain boundaries

Store/
secure feed

Remove rubbish
