

CERTIFICATION AND LABELLING MODELS FOR THE AUSTRALIAN EGG INDUSTRY

Published: 1 August 2013

Authors: F.P. Gale

Organisation: University of Tasmania

Time: 1st Jul 2011 - 1st Aug 2013

Categories: Proactive extension & adoption

Tags: Australian egg industry, certification, egg production systems, labelling, private governance

This project was conducted to better understand the structure of private certification and labelling schemes in the Australian egg industry and, building on the experience of the Forest Stewardship Council in the forest industry to assess the feasibility of establishing an 'Egg Certification Council'.
